

# Defrost timer Units TMDJ

## TMDJ

PDFダウンロード 

- **Applications**

Defrost timer for refrigerator, freezer, show-case and others

- **Features**

Hi-reliability at AC inductor motor  
Possible to choose the cycle and defrost time

- **Specifications**

Motor driving parts	Rated voltage	AC120V (50/60Hz)	AC230V (50/60Hz)	AC120V (50/60Hz)
	Current input	10mA or less	15mA or less	10mA or less
	Starting voltage	More than 100V	More than 190V	More than 85V
	Power consumption	0.4W or less	0.6W or less	1.5W or less
Switch rating	Compressor side	AC125V 1/3HP AC250V 1/3HP		
	Defrost side	AC125V 10A COSφ = 1 AC250V 5A COSφ = 1		
Operating temperature		-20 ~ 60℃
